Clarence J. Shearn, Mrs. Thaw's counsel,

Tanned by the Florida sun, but not yet having recovered his full strength, John Purroy Mitchel, president of the Board of Al dermen, was at his office yesterday for the first time since he was stricken with typhoid fever, on December 7. On that day he was taken to St. Luke's Hospital, and did not get out again until February 17. having suffered one relapse because he tried to get out too soon.

President Mitchel had a long talk with

a visit to Mayor Gaynor. He spent half an hour with the Mayor going over the subway problem and other municipal matters. "I do not care to talk about the subway

question for publication now," said President Mitchel, "because I am entirely out of touch with it. Under strict orders from my physician I have not looked at any New York papers and when I returned did not have the slightest idea as to how the matter stood. I intend to get right down and study up on it, however." From the start President Mitchel has

been opposed to the Interborough proposition and for a time had the support of Controller Prendergast. Most of the members of the Board of Estimate and Apportionment are in favor of the latest offer of the Interborough, and if President Mitchel decides to make a fight against it he will probably have to play a lone hand.

The officers were re-elected as follows: Herman Ridder, chairman; Edward Hagaman Hall, vicechairman; William A. Johnson, secretary, and Isaac N. Seligman, treasurer.

The Mayor made a little speech, in which he said that the committee had done such good work last year that he thought its members ought to serve again under Mr. Ridder as chairman. Declaring that he did not care to suggest anything as to the character of the celebration, he said he would leave it to the committee as to whether there should be one big celebration, a num ber of neighborhood celebrations or both. No one, he thought, wanted firecrackers any more, and that "seems to have been

Whitman Argues in Brooklyn for Writ of Prohibition.

Argument was held before the Appellate Division of the Supreme Court, Brooklyn. yesterday afternoon upon the application of District Attorney Whitman of New York County for a writ of prohibition to prevent Justice Woodward, of the court, from passing finally upon the application of ex-City Chamberlain Hyde for a writ of habeas corpus. Mr. Whitman appeared personally. Frederic R. Coudert appeared for Justice Woodward and Max D. Steuer for Mr. Hyde. Most of the arguments advanced had already been heard in the discussion between the lawyers connected with the case. Decision was reserved.

A point of contention was whether a writ of prohibition was the proper remedy. Regarding this Mr. Whitman said the principal office of the writ of prohibition was "to restrain an inferior tribunal from acting in excess of its jurisdiction. It is not essential that the court should be wholly devoid of jurisdiction." He also insisted that the question as to whether Secon 25 constituted an abridgment of the urisdiction of the Supreme Court was not properly before the court in the proceedngs, because the habeas corpus proceedings were not instituted before the court, but efore Justice Woodward, acting "as a udge out of court."

Mr. Coudert and Mr. Steuer both argued returnable before himself. Mr. hought District Attorney Whitman should authorities received information which led walted until Justice Woodward had them to trace Dorr's movements. made the writ of habeas corpus permanent and then have carried the matter to the garage an automobile which they believe to that such a proceeding on his part would taken to the spot where it was found. They ices to issue writs of habeas corpus made returnable in counties other than those in which prisoners are detained.

FOR MARSH MURDER Baltimore, April 15.-The Central Conference of American rabbis, at its session here to-day, passed a resolution which in effect discountenanced all movements which represent the Jews as a power other than as a religious sect. The Jewish political clubs, Jewish suffragists, the Kihillah Society, the Zionist movement and other organizations were mentioned in the debate, although the speakers made it clear that, their emnation of these organizations went no further than the words of the resolution OFFICERS THERE GIVE CLEW We discountenance the movement toward the formation of Jewish communities on other than the religious basis."

The matter was brought up by the committee on church and state, whose report contained this clause:

The question of the misrepresentation of Jews in stage characters was taken up. The committee reported that it had received encouraging replies from theatrical managers to whom protests had been made, but said that there was need for keeping up the agitation. The study of "The Merchant of Venice" in the schools was condemned by the conference on the ground that the play misrepresents the Jewish character. Impromptu declarations were adopted on intermarriage, which is declining, according to reports by the committee on social and

religious union.

Rabbi Maurice Lefkovitz, of Duluth.

Minn. offered a resolution which was unanimously adopted, that a Jew who joins a Christian Science Church is "henceforth to be regarded to all intents and purposes as a non-Jew in faith."

Inasmuch as we are unqualifiedly committed to the total separation of church and state, we discountenance the movement toward the formation of Jewish communities on other than the religious basis, because it tends to create the impression that the Jews are an imperum in imperio.

While the operators are treating us very well and are meeting us on common ground, the Roosevelt victory in Pennsyl-vania, we believe, will cause the operators to wish to end the suspension at the earliest

Our reason for this view is that the miners believe Roosevelt is their friend, and with Roosevelt so strong, especially in the mining regions, should the operators not come to some equitable agreement with the miners, the Roosevelt sympathizers practically would force federal intervention. The operators do not wish federal intervention nor do the miners, but if it should come we have reason to believe that the operators would suffer far more from it than would the workingmen. it than would the workingmen. There was, generally speaking, a hopeful feeling among the members of the miners' com-mittee, and Mr. White said he believed that the miners would be able to bring about a settlement which would be advantageous to them.

Time tells nothing about

Not all slim men are youths. nor are all youths slim.

So in the so-called youths' sizes, 32 to 35 chest, we cover a wide range of tastes. Four new models this Spring.

None of them mere scale downs of larger suits, but all designed for slimness.

Styles for the youngster of 17; other styles for his equally Patterns too for every taste

-two toned grays and two toned browns, blue gray mixtures, new effects in Harris Sizes 32 to 35 chest; prices

Spring overcoats.

Made specially for slim men. Our generous provisions for very big men is another story,

for another day.

Rain-insurance—

Mackintoshes, light weight ain-proofed woolens, rubbers, 'Double" shoes, soft hats. Everything here for the

greatest game"-and all the Baseballs, mitts, bats, golf clubs-everything for Spring
